ANSH SUDESH KHEDEKAR

Mumbai, India | +91 8591087952 | anshkhedekar10@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

B.Sc. IT graduate looking for entry-level roles. I have hands-on experience cleaning and analysing data with Excel, Power Query and Python, and building Power BI dashboards, which I applied in my customer churn analysis project. I also build web apps with React, FastAPI and MongoDB, including a medicine delivery platform and my own portfolio site.

SKILLS

- **Technical:** Python, JavaScript, HTML, CSS, SQL
- **Data Analysis:** Advanced Excel, Power BI, Power Query, Pandas
- **Tools:** Git, GitHub, Docker
- **Soft Skills:** Quick learner, problem solving, attention to detail, communication, teamwork

PROJECTS

Med-For-All: Medicine Delivery Web App | Python, MongoDB, JavaScript, HTML/CSS, Git

- Built a full-stack ordering app with search, filters and a cart, with a Python backend and MongoDB for products, users and orders.
- Made the front end responsive and tested it across browsers and screen sizes.

Customer Churn Analysis & Prediction | Power BI, Excel, Power Query, DAX, Python, Pandas, NumPy, Scikit-learn

- Built an interactive Power BI dashboard to track customer retention trends and see which factors push customers to leave.
- Cleaned, transformed and prepared the telecom customer dataset in Power Query before analysis.
- Added KPI cards for total customers, churned customers and overall churn rate.

Developer Portfolio: React and FastAPI with CI/CD | React, Python, FastAPI, Docker, CI/CD (Live Demo)

- Built a responsive React and FastAPI site, containerized with Docker and deployed through a CI/CD pipeline, cutting manual deployment steps by about 70%.

EDUCATION

- **B.Sc. Information Technology** — Shailendra Education Society, Mumbai (2024–2026) | CGPA 7.23
- **Diploma in Information Technology** — Pravin Patil College (2020–2023) | 73.50%

CERTIFICATION

- **AI & Data Analytics with Python** — Techcryptors
